Re: voicemail recording on Judge Stephens' division's phone at 602-506-4818:

Hello, there are reports on television that one of the jurors in the Arias' trial, the one with the multi-colored hair, is attempting to coach Arias from the jury box. She shakes her head no, no, no to tell Jodi not to answer a question. So I was wondering if that's permissible and if that should be looked into. Like I said, it's a woman juror who has pink and blue hair and she's trying to coach Arias - trying to influence Arias' answers from the jury Arias. So I was wondering if that can be looked into. Thank you very much.
